Gaza, Gaza, 00970, PS

Full Stack Developer with hands-on experience building and deploying production-grade web applications, including e-commerce and accounting systems. Experienced in modern backend technologies such as Supabase and Convex, with strong database design and authentication implementation skills. Skilled in React, Next.js, and performance optimization. Passionate about scalable architecture, mentorship, and leveraging AI tools to improve development workflows. Currently expanding backend expertise through Laravel (PHP).

Work Experience

Freelance Frontend Developer Jan 2023 - Present
Remote

Developed responsive and scalable websites using React, Next.js, and Tailwind CSS. Built portfolio and marketing websites optimized for performance and accessibility. Integrated APIs and optimized frontend code for fast loading and maintainability. Designed and prototyped UI/UX interfaces in Figma aligned with client branding and usability standards.

Full Stack Developer (Volunteer) Nov 2025 - Feb 2026
Zero to Hero

Architected and deployed a production-ready e-commerce platform using Supabase and Convex. Designed and implemented a custom accounting and hourly billing system to automate workspace charge tracking and invoice generation. Developed secure authentication flows and role-based access control. Managed the full software development lifecycle from planning to deployment. Delivered stable production systems used for internal operational management. Conducted a Prompt Engineering wo rkshop to improve AI-assisted development workflows. Mentored a junior developer, teaching JavaScript and React fundamentals and guiding hands-on project implementation to ensure strong core understanding.

Core Skills

Frontend: HTML5, CSS3, JavaScript, ES6+, React, Next.js, Tailwind CSS
Backend: Supabase, Convex, REST APIs
Database: PostgreSQL, Database Schema Design
Tools & Practices: Git, GitHub, Production Deployment, API Integration, Authentication & Authorization, Responsive Design, Performance Optimization
Additional: UI/UX Design, Figma, Prompt Engineering, Technical Mentorship
Currently Learning: Laravel, PHP Framework
